To whom it may concern:

City Creek Construction & Development, LLC is a construction service firm operating across the Wasatch Front. As a general construction firm, we operate mainly in the commercial market and are involved in all aspects of the construction process. For well over 10 years now we have had a very strong working relationship with Greene's, Inc.

We have experienced many different and challenging projects over this time frame and have found the committed employees at Greene's, Inc. to be professional and knowledgeable. While not all inclusive, some of the services provided by them include: Demolition, Site & Utility Improvements, Excavation, Concrete Flatwork/Footings/Foundation/Etc., Concrete Cutting/Break/Removal, Landscaping and other. Their management team has always conveyed an attitude of willingness with a desire to do whatever is required to complete any project we have been working on.

In addition, Greene's, Inc. has worked effectively in completing their portion of trade work within specified time constraints and has always demanded a high degree of quality from their on-site employees.

We value the relationship we have with Greene's, Inc. and look forward to many years of continued success with them as a valued partner in the solution of construction service work. Please feel free to contact me personally with specific questions regarding this letter of recommendation.
